

Data Resiliency

Be protected from the unexpected.

Chances are your area has been affected by a natural disaster at some point, but it doesn't take a catastrophe to produce catastrophic losses. In the event of an accidental fire, is your data safe? How quickly could your information be recovered? What would each minute of downtime cost you in lost productivity and customer loyalty?

When it comes to storing and managing your information there are so many questions worth consideration. Simpler-Webb is here to help. From Storage Area Networks to disk-to-disk backup and recovery solutions, we've got you covered. You'll be able to ensure if an unfortunate event occurs, your information is safe and available, so you can get back to serving your customers as quickly as possible. Whether leveraging our partners' technology or simply our own know-how, we deliver a customized solution meeting regulations and your own metrics.

With a Simpler-Webb Data Resiliency solution, customized to your needs, you'll:

Simplify data backup and recovery, saving time

Achieve regulation compliance and safeguard customer privacy with fully encrypted solutions

Meet your Recovery Time Objectives and Return to Service metrics

Make sure your solution runs optimally with Simpler-Webb's Managed Storage
